Poster session presented at European Association for Health Information and Libraries (EAHIL), Basel, Switzerland. <https://www.slideshare.net/RobinOttjes/lean-library-your-library-in-a-browser-experiences-from-the-university-medical-center-groningen-and-university-of-groningen>

Copyright

Other than for strictly personal use, it is not permitted to download or to forward/distribute the text or part of it without the consent of the author(s) and/or copyright holder(s), unless the work is under an open content license (like Creative Commons).

The publication may also be distributed here under the terms of Article 25fa of the Dutch Copyright Act, indicated by the "Taverne" license. More information can be found on the University of Groningen website: <https://www.rug.nl/library/open-access/self-archiving-pure/taverne-amendment>.

Take-down policy

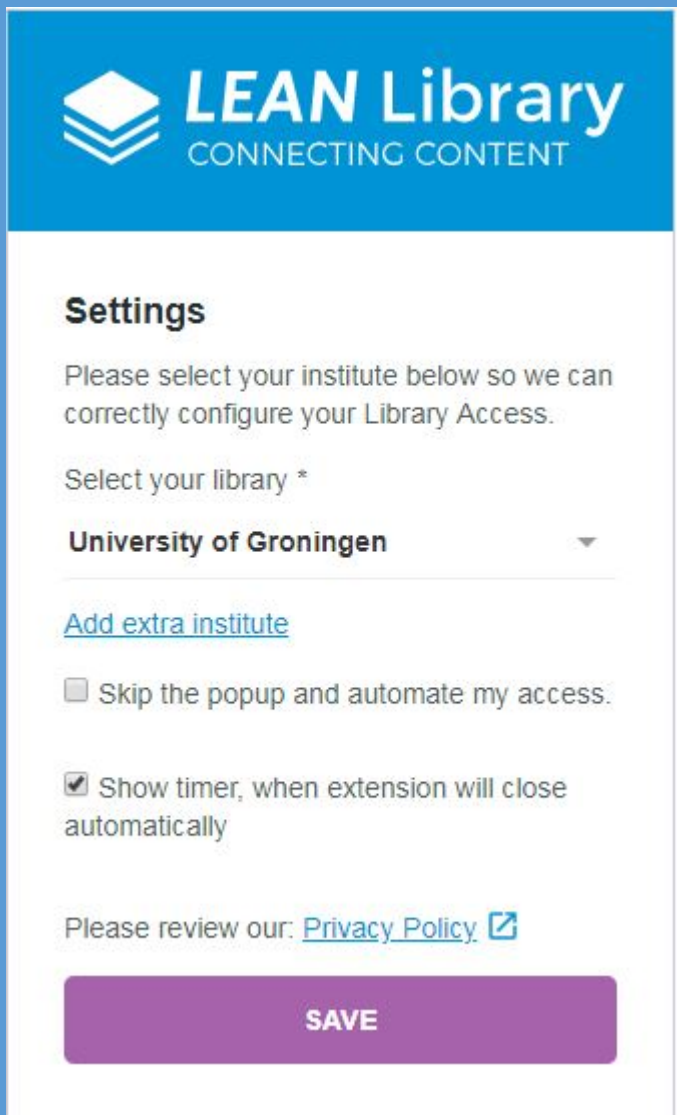

If you believe that this document breaches copyright please contact us providing details, and we will remove access to the work immediately and investigate your claim.

Downloaded from the University of Groningen/UMCG research database (Pure): <http://www.rug.nl/research/portal>. For technical reasons the number of authors shown on this cover page is limited to 10 maximum.

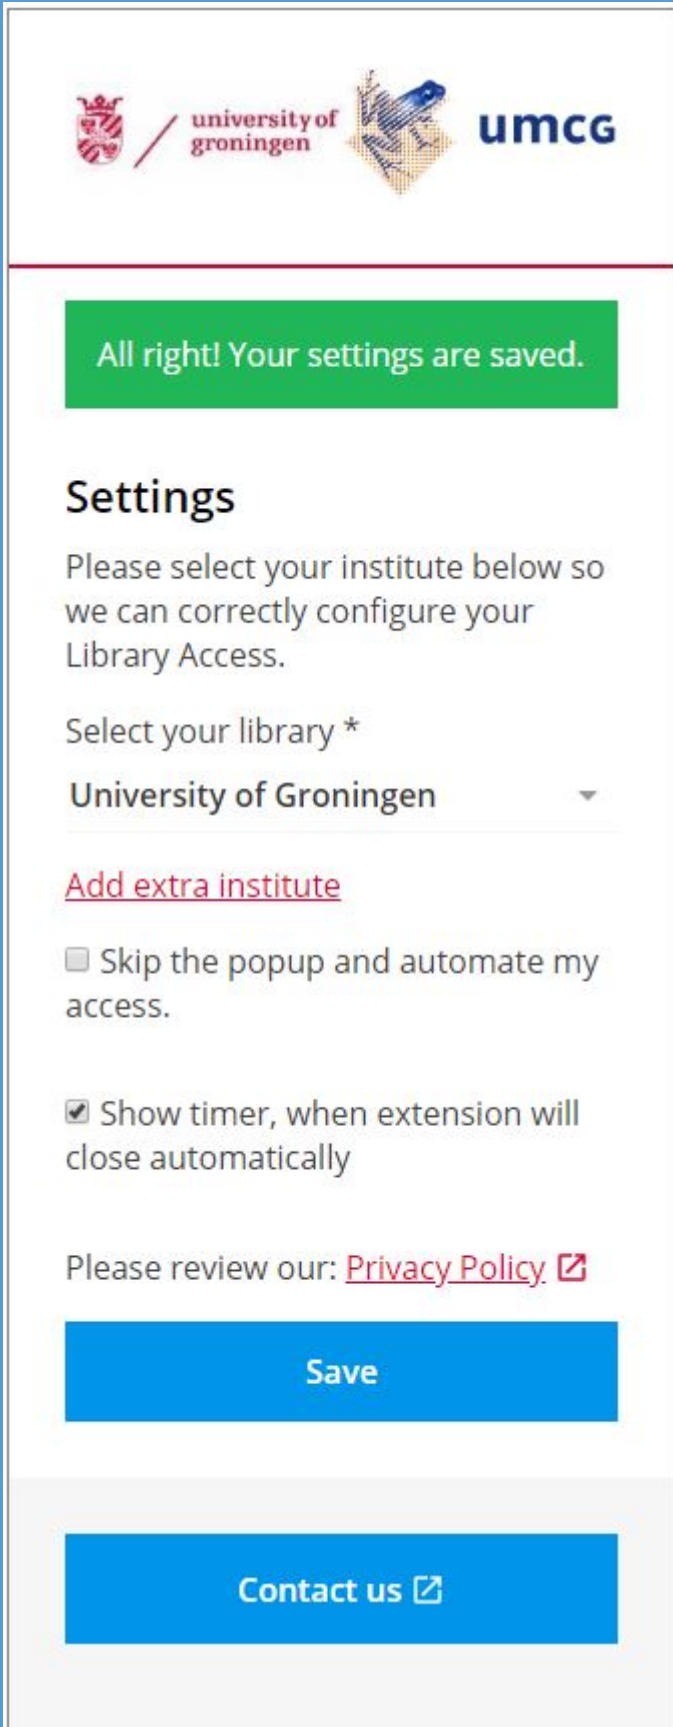

Lean Library: Your library in a browser.

Experiences from the University Medical Center Groningen and the University of Groningen

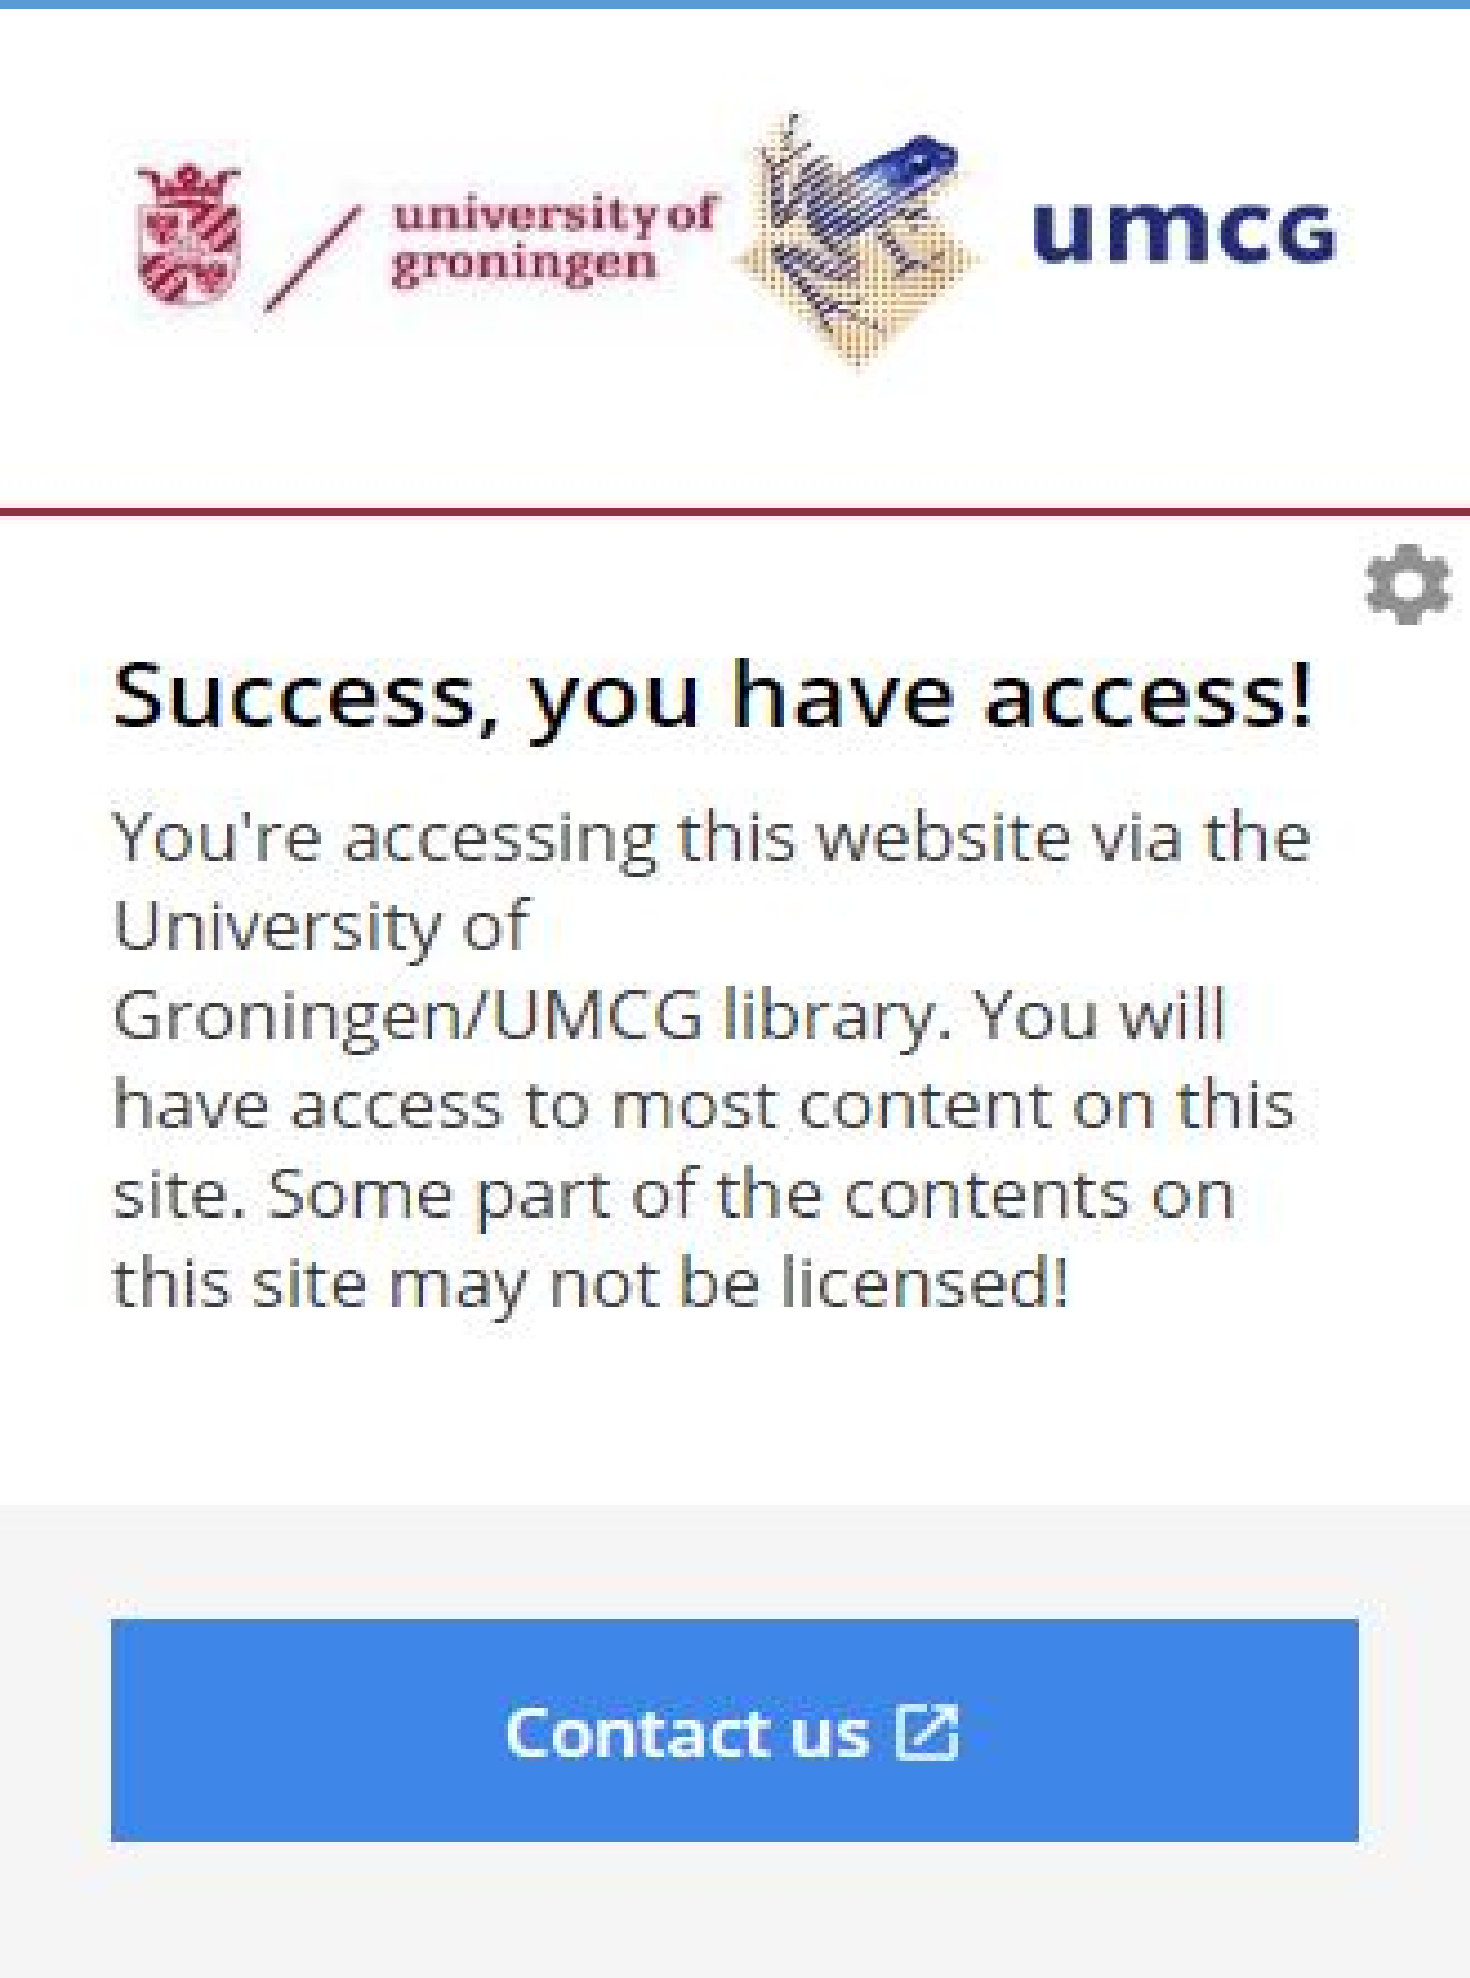

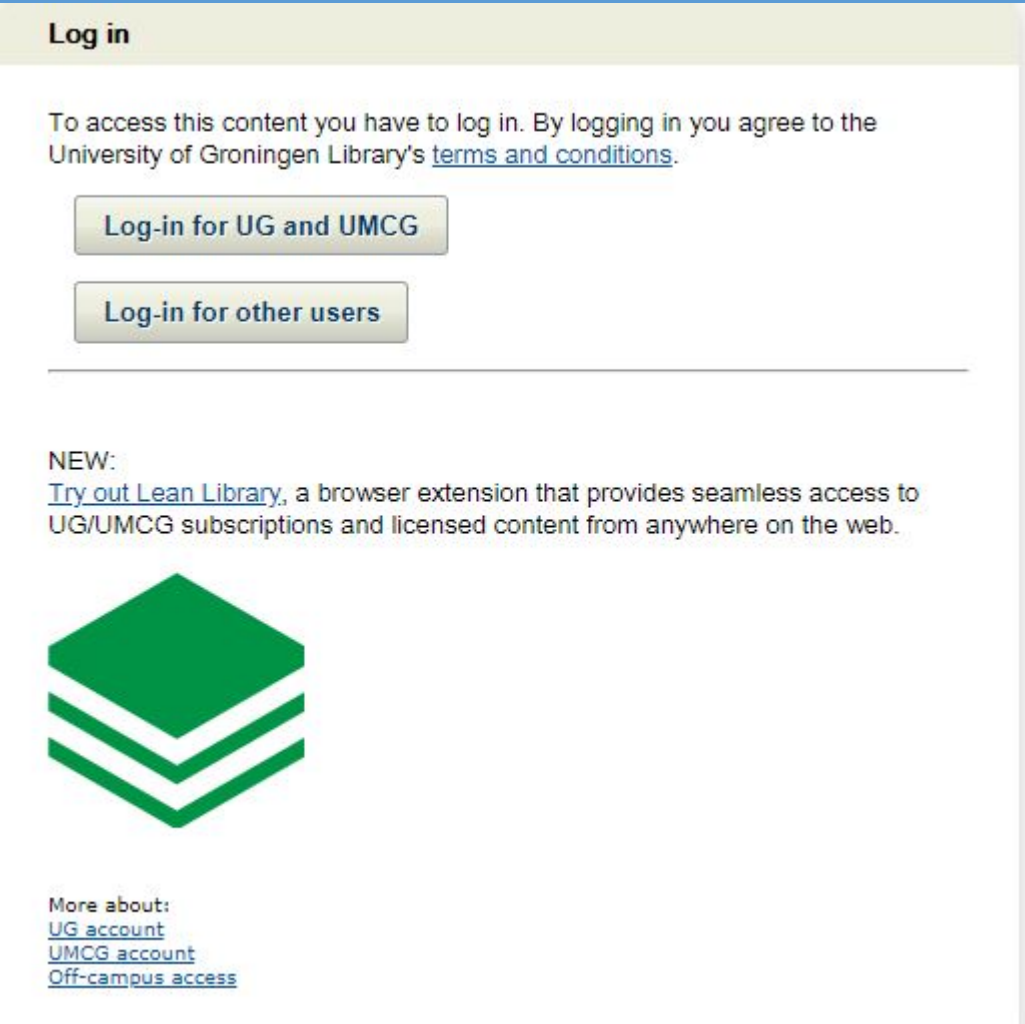

Simplifying off-campus access

Available on all major browsers!

(UG/UMCG proxy-login screen)

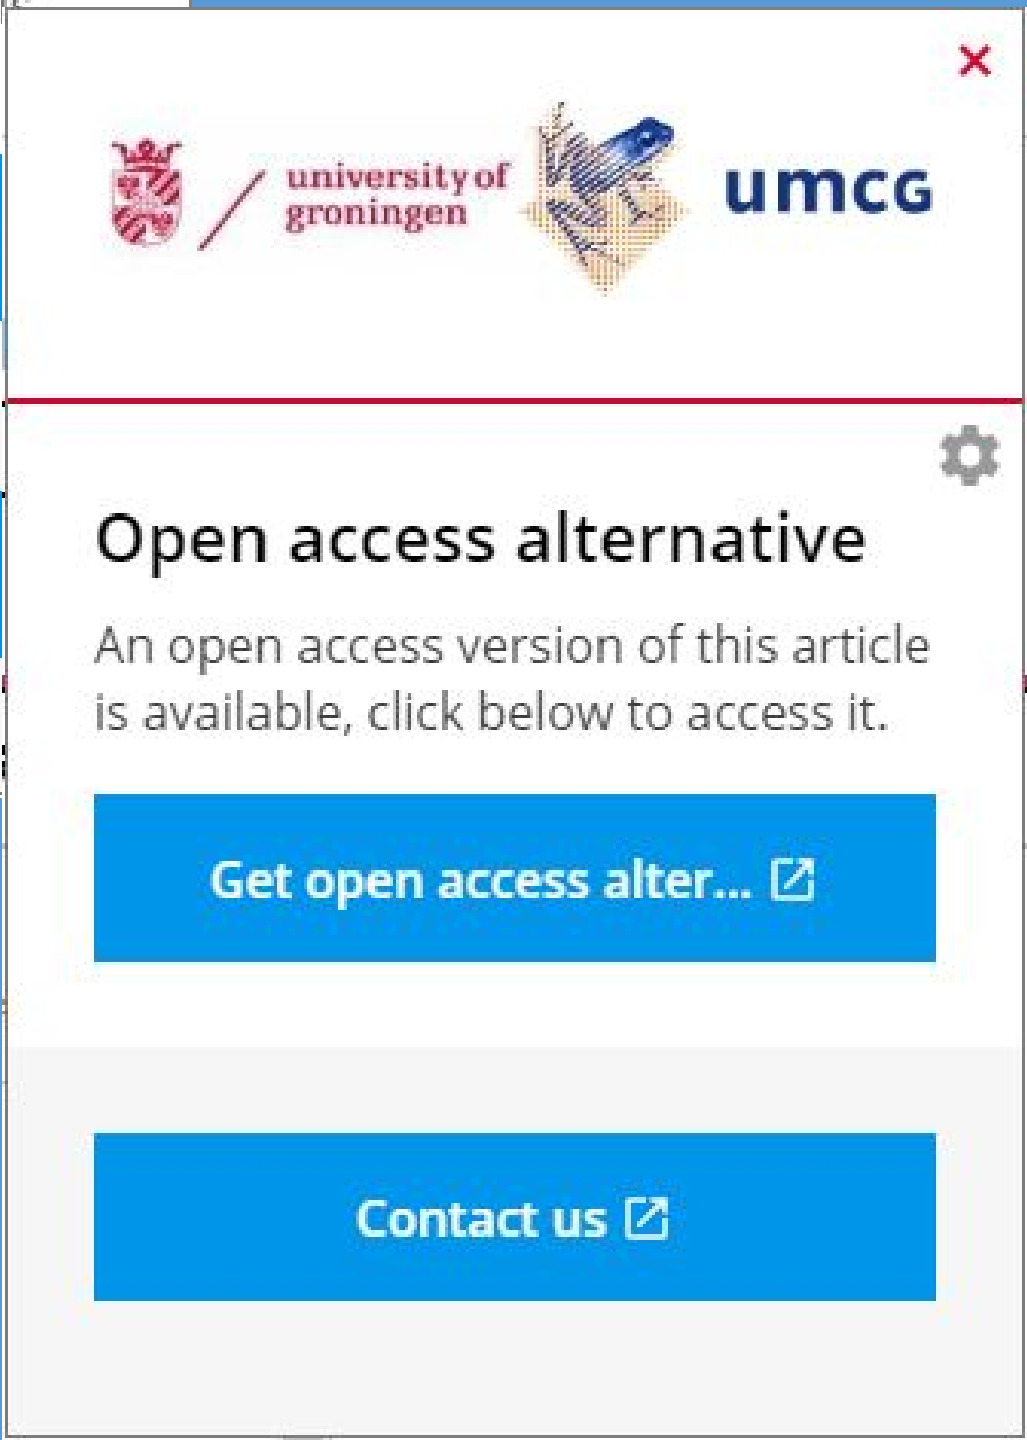

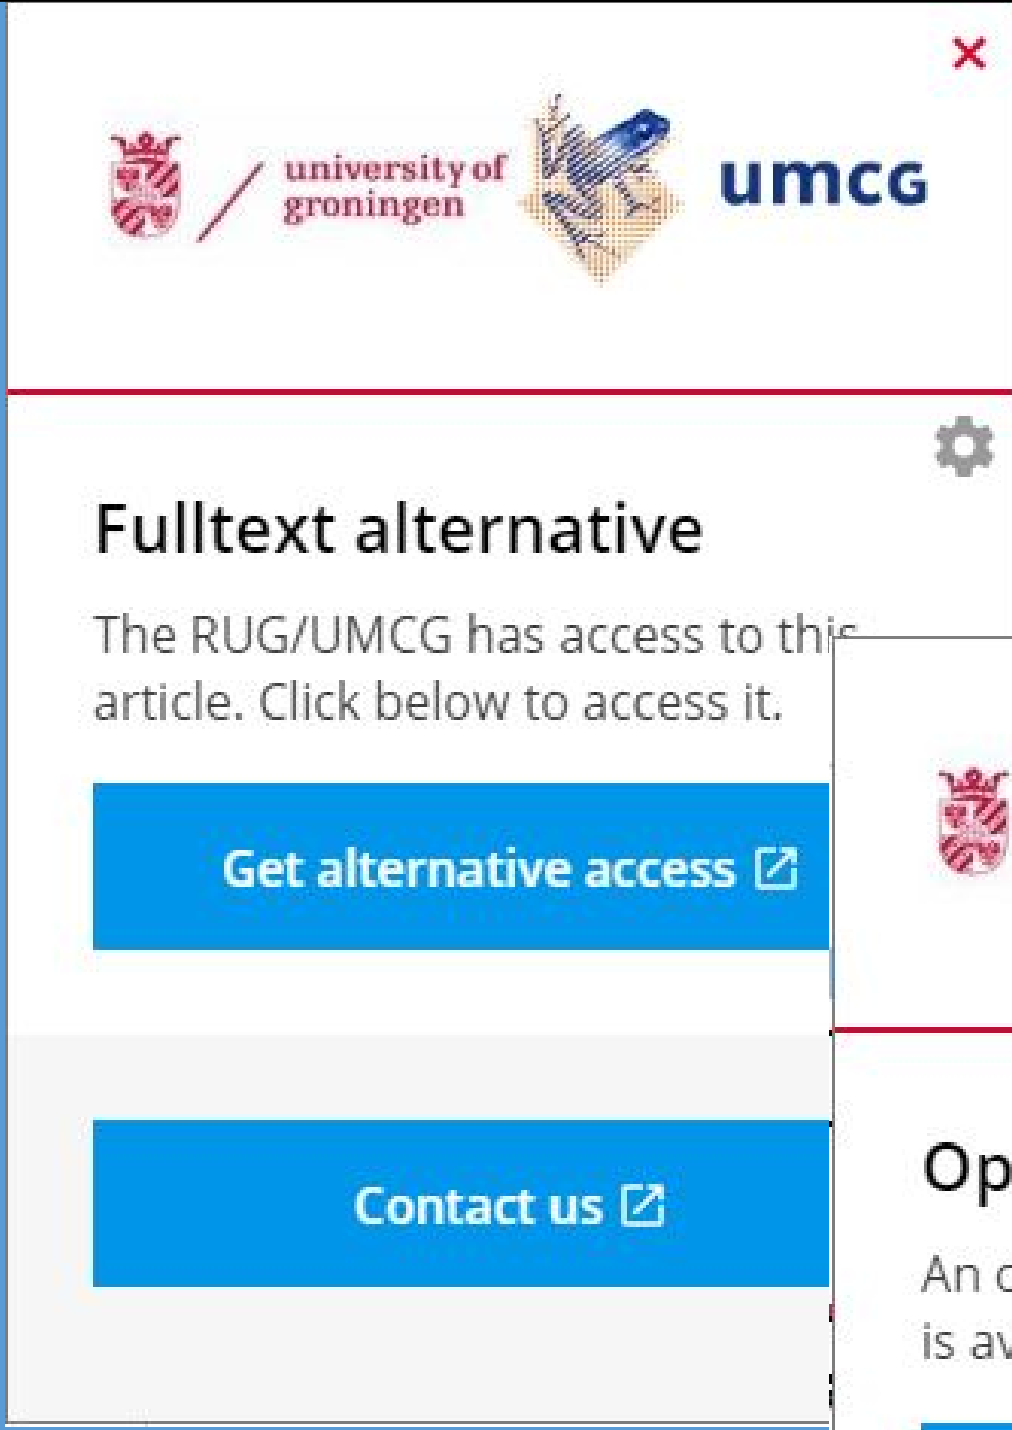

How do you get access?

Everything via Groningen proxy-server and thus instant access (if we have a subscription)

<https://www.sciencedirect-com.proxy-ub.rug.nl/science/article/pii/S1050641118300919>

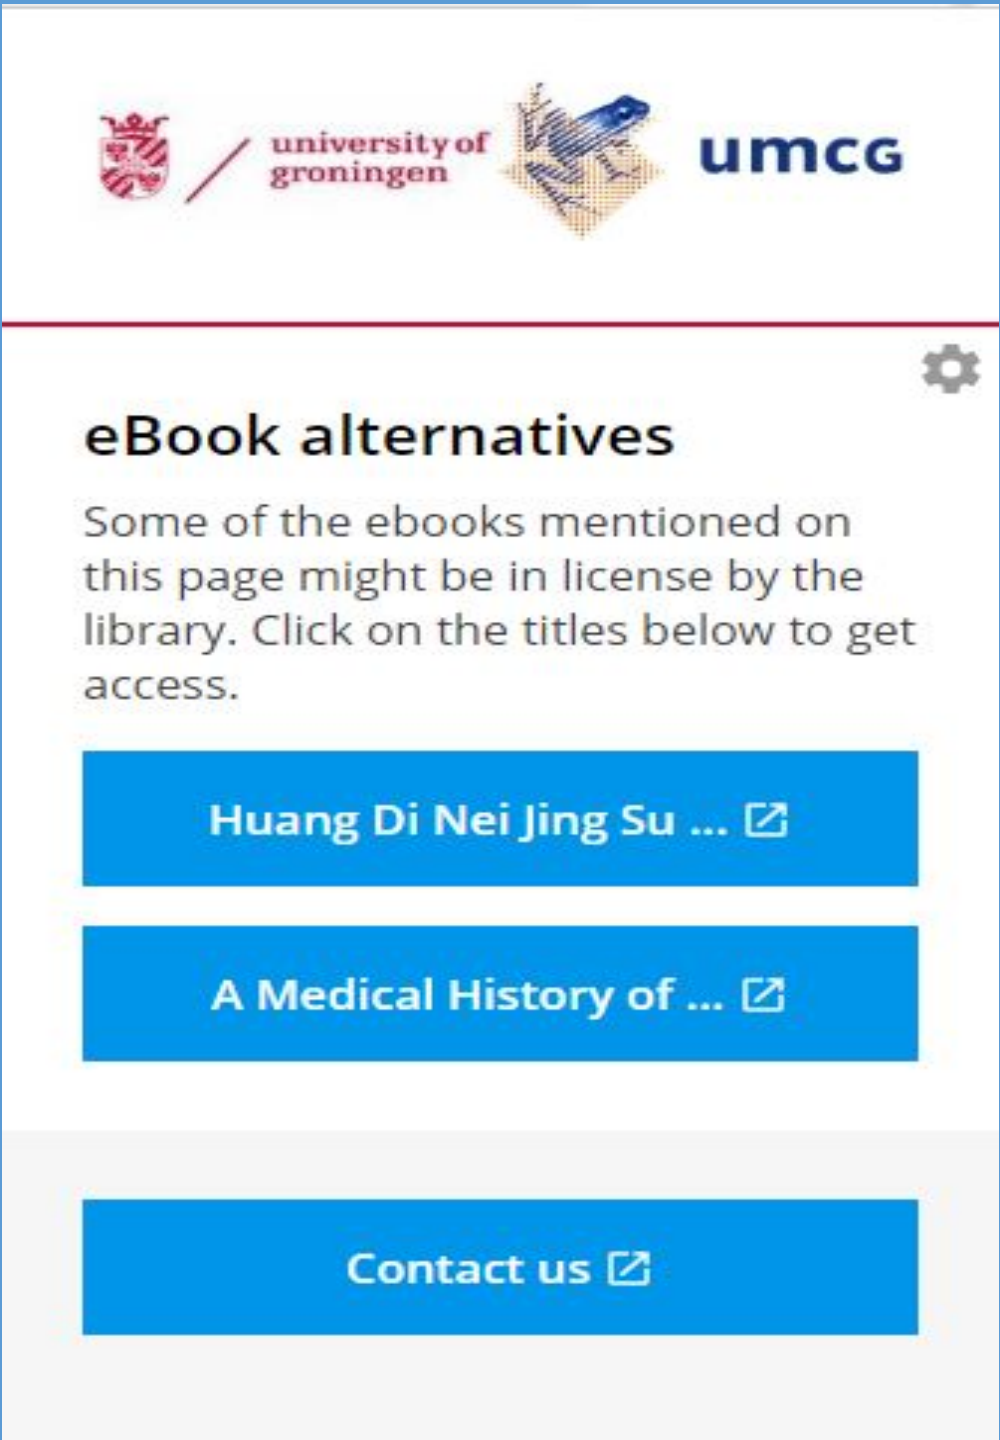

Looking for alternatives

Looks for open access alternatives Using **Unpaywall** data if we don't have access.

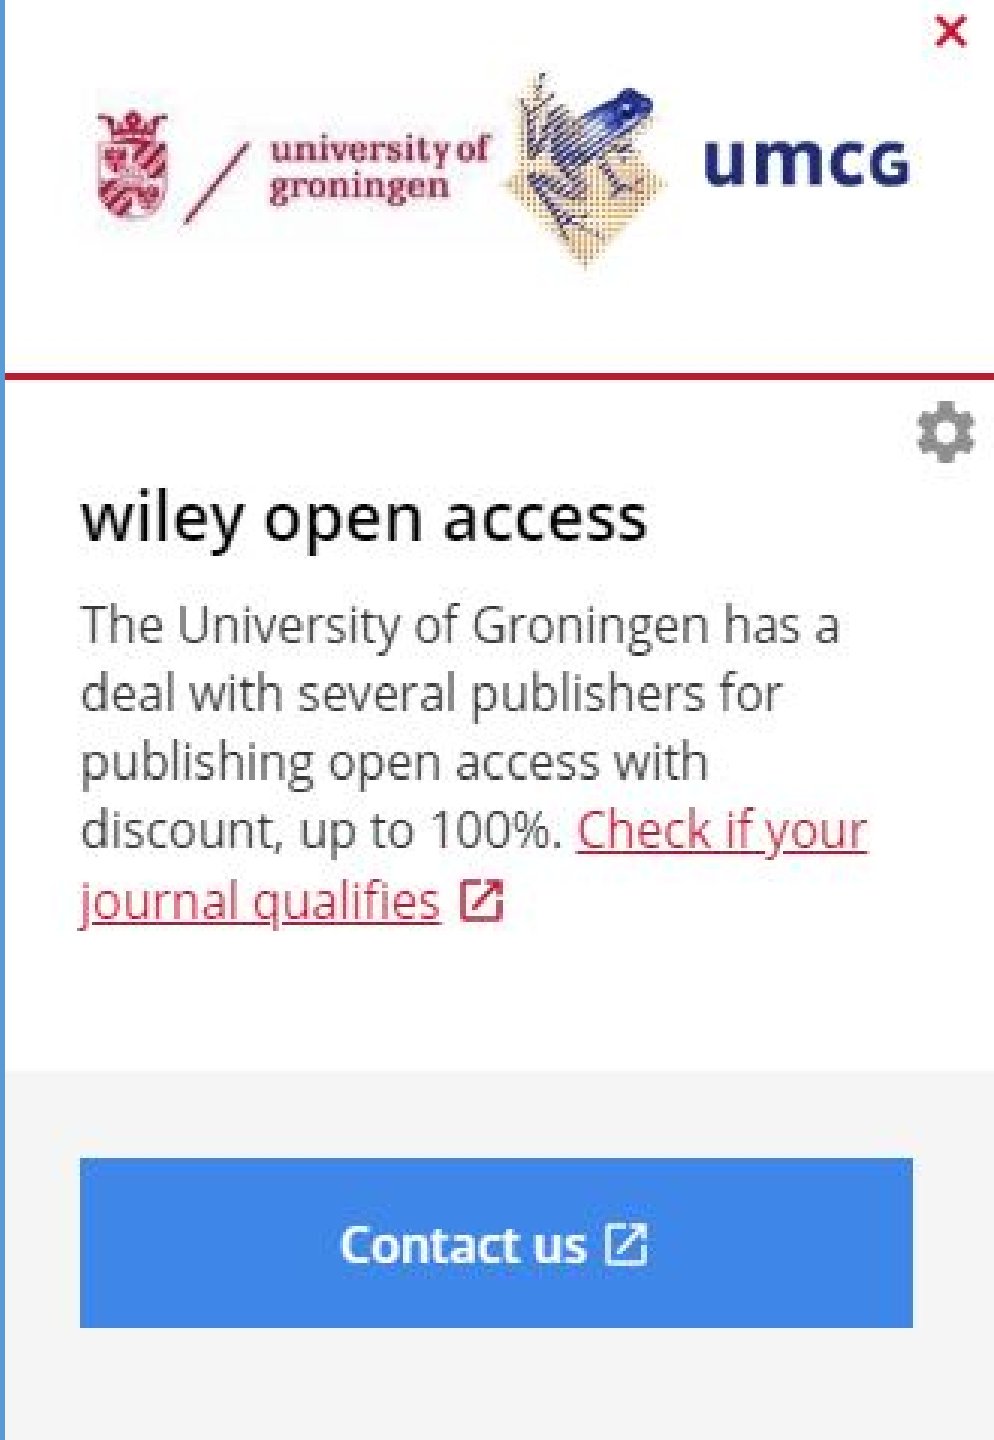

No alternative? You will be redirected to the library request page

Possibility for assist

Makes your E-book collection more visible!

It looks for ISBN on the page you are visiting and reacts if we have it available as E-Book.

A tool for communication with users E.g. about open access deals!

It will display our message on the pages that we've programmed it to. The message above is on publisher submission pages

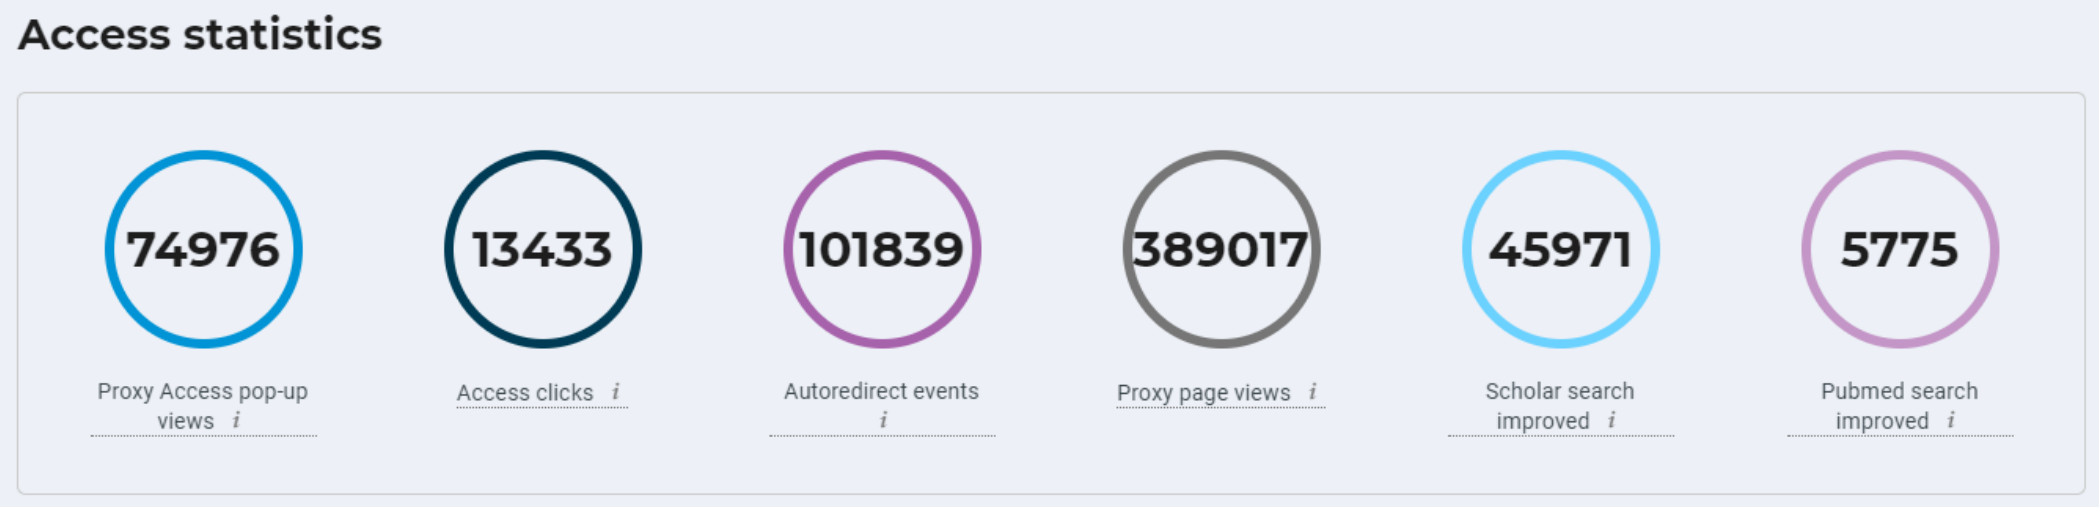

PubMed/GoogleScholar integration

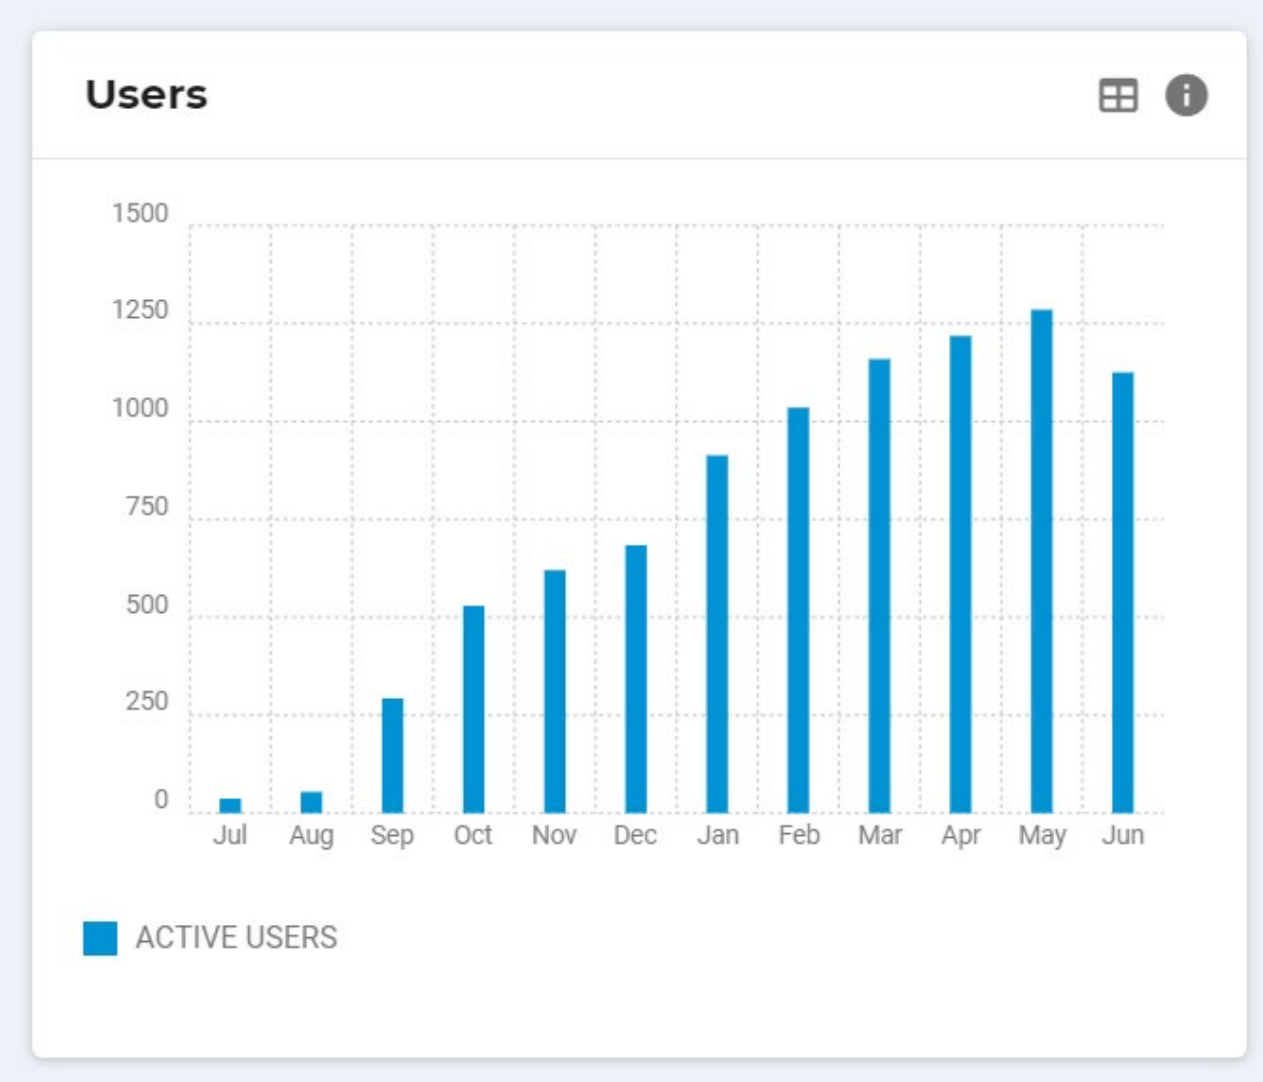

It adds our custom filters and a button to our link resolver. Clicking 'Get it!' will lead you to the article if we have a subscription.

Analytics

Total analytics shown since we started with Lean Library. More detailed statistics are also available.

Unique users that have used Lean Library at least once. Counting stats at 0 at the start of every month

CONCLUSION

We are happy with the development of this browser extension. It brings the library closer to it's patrons and therefore makes the library more visible.

Simplifying off-campus access and providing alternatives when hitting a paywall makes the workflow easier for both researchers and students.
